

# Estate Agents - QR Codes with a Difference

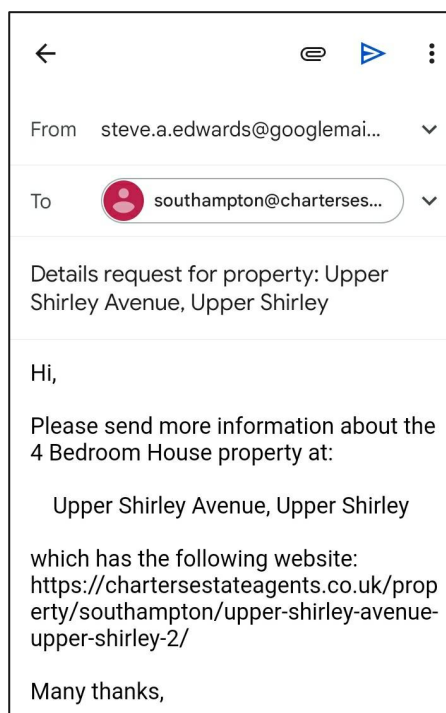

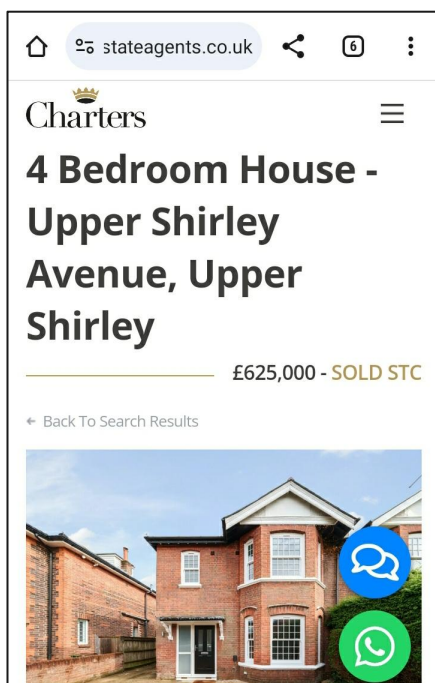

???  
**improve  
customer  
access to  
info!**

**1: they  
scan QR  
code on  
board**

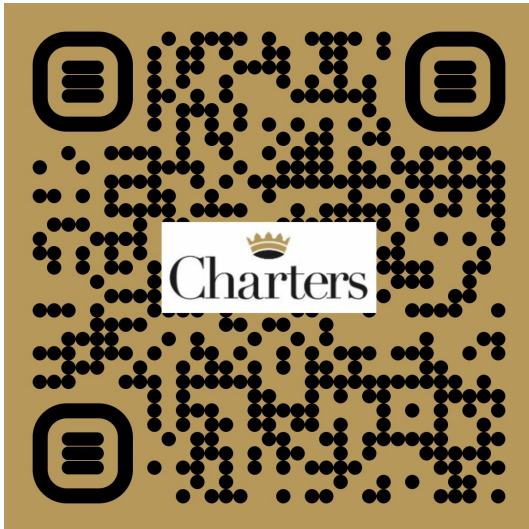

**2: page appears showing  
basic details & buttons  
to: call office; view web  
page; send email**

**Details filled in  
automatically, user  
only needs to press a  
couple of buttons,  
NO typing!**

# Estate Agents - QR Codes with a Difference

QR Code integrated with board outside property, or on poster in agent's window.

*Attractive, Branded, Colourful.*

When prospective customer scans the QR Code, taken to a web page which shows basic property details and buttons to get more info: *Call / Browse / Email.*

**Call:**  
triggers mobile phone app & with agent's number already entered.

**Browse:**  
triggers mobile browser app to see the web page of that specific property.

**Email:**  
triggers mobile email app, with agent's email id, subject, content fields automatically entered.

Whichever button the user presses, all details filled in automatically, only needs to press a couple of buttons: **NO typing!**
